

ELLY ELIPTICAL

Item# F-WXEL

Elly combines the benefits of rowing, cross-country skiing, stepping and biking. It works virtually every muscle in the body. The secret lies in the elliptical movement designed to replicate the natural motion of running while limiting impact on joints.

Elly offers users smooth movement through sealed ball bearings. The resistance is increased by wide blades on the lever arms. The brushed stainless steel finish can withstand pool environments and requires little maintenance. The lightweight design and attached wheels make transportation a breeze.
