

THE AQUA WALKER

SWIM TRAINING & THERAPY

ITEM# F-605UW

ABOUT

The Aqua Walker allows users to enjoy the freedom and buoyancy of aquatic exercise, with added support and balance! Giving users the same stability they have come to trust on dry land, this product is ideal for both personal use and therapeutic rehabilitation purposes.

Drainage holes allow water to enter and exit the walker, keeping it sturdy even when fully submerged. With easy-to-use snap pins, the walker is easily adjusted to the arm height you prefer.
